NARCES DEBUTS IN EUROPE WITH A UK LAUNCH

Showcasing AW2012 at the Scoop International Fashion Exhibition Feb 12-14, 2012

Toronto –

AW2012 marks the second season of the Canadian design label, NARCES, as it debuts in Europe. The collection for this season will be showcased at the Scoop International Fashion Exhibition this February between 12-14th in London's Saatchi Gallery.

AW2012 –

"I think it is important to see the person first and the clothes afterwards", Grace Kelly.

Inspired by the 1950's fashion icon, Grace Kelly and her timeless style, the collection this season sets out to create romantic glamour and elegance with an understated tone made to showcase the woman in the dress. Focused on evening and special occasion dresses, the silhouettes and cuts are classic yet designed to highlight femininity with multi-occasion wearability in mind. Elements used within fabrics to create this collection for this season are sheerness, lots of texture, black, ivory, buoyant shade of red, and lace with a tiny hint of sparkle.
